

The proposed Broadcast Flag coupled with the DMCA makes it a federal crime to record a TV show and watch it later. That's ridiculous! This flag gives the content provider power to both make the rules and enforce them about how we use the information broadcasted into our homes. That's too much power to give them. The Broadcast Flag is a *BAD* idea. Do not hand over *ALL* power to the content providers. Consumers should have *SOME* rights too.
